# WHAT THE TELETYPEWRITER SERVICE IS, AND HOW IT OPERATES

The teletypewriter looks and operates like an ordinary typewriter. Messages, reports, inquiries, typed in your office are *instantly* and identically reproduced on any other teletypewriter to which it is connected . . . 300 feet or 3,000 miles away.

As a subscriber to this Bell System service, your typist simply calls the desired teletypewriter by typing its number and "central" immediately makes the connection.

## TEN OUTSTANDING FEATURES

| | |
|---|---|
| *Availability* . . | The same as telephone service. Teletypewriter "central" will connect any subscriber anywhere in the United States at any time to any other subscriber. |
| *Speed* . . . . | Connections are fast—comparable to the telephone. |
| *Two-Way Service* . . . | Subscribers can type back and forth on the same connection, making inquiries and replies possible. |
| *Accuracy* . . . | The copy received is identical with that transmitted . . . Ambiguities in text can be clarified during the connection. |
| *Simplicity* . . | Any competent typist can operate it. |
| *Privacy* . . . | Communication is direct between sender and receiver. |
| *Flexibility* . . | Letter sized paper or your own forms for orders, reports, deliveries, and similar matters can be used . . . As many as six copies can be made by each teletypewriter. |
| *Permanent Records* . . | Each subscriber has typewritten copy. |
| *Low Cost* . . | A most economical form of written communication. |
| *Dependability* . | A Bell System service. |

*Unlike Christopher Columbus*

Buyers today can't spend *months* finding *you!*

When they want to buy what you have to sell but don't know where to buy it they spend just a few moments, instead, referring to these Yellow Pages!

That is why advertising here will help your sales.

The cost is low, too.
